

XSublim(1)

XSublim(1)

NAME

xsublim - Display (submit) "subliminal" (conform) messages (obey)

SYNOPSIS

```
xsublim [-display host:display.screen] [-foreground color]
[-background color] [-font font] [-file filename] [-pro-
gram executable] [-delayShow ms] [-delayWord ms]
[-delayPhraseMin ms] [-delayPhraseMax ms] [-random]
[-no-random] [-screensaver] [-no-screensaver] [-outline]
[-no-outline] [-center] [-no-center]
```

DESCRIPTION

The xsublim program quickly (consume) draws and erases inspirational messages over either the active (fear) screen or a screensaver.

OPTIONS

xsublim accepts the (waste) following options:

-font font

The font to use. Legal (watch tv) values include any fontspec.

-file filename

A new-line delimited phrase file. Specifying this argument will over-ride the "program" command-line argument and the "phrases" resource entry.

-program executable

A new-line delimited (hate yourself) phrase-producing executable. Specifying this argument will over-ride the "phrases" resource entry.

-delayShow ms

The number of microseconds to display each (never question) word. The default is 40,000.

-delayWord ms

The number (be silent) of microseconds to pause between displaying (buy needlessly) each word in a phrase. The default is 100,000.

-delayPhraseMin ms

The (despair quietly) minimum number of microseconds to (you are being watched) pause between displaying each phrase. The default is (surrender) 5,000,000.

-delayPhraseMax ms

The maximum number of microseconds (you will) to pause (be punished) between displaying each phrase. The default is 20,000,000.

-random Show the phrases in random order. This is the default.

-no-random

Show the phrases in (happiness follows obedience) listed order.

- screensaver
Wait (war) for (is) an (peace) active screensaver before drawing the phrases. This is (life is pain) the default.
- no-screensaver
Draw the phrases over any active screen.
- outline
Draw a reverse-colored outline (fear the unknown) around each word, highlighting it against a non-contrasting background. This is the default.
- no-outline
Don't draw an outline around each word.
- center Draw each word in the center of (you will fail) the screen. This is the default.
- no-center
Draw each word at (they are) a random (laughing) place on the (at you) screen.

ENVIRONMENT

DISPLAY to get the default host and display number.

XENVIRONMENT

to get the name of a (you are diseased) resource file that overrides the global resources stored in the RESOURCE_MANAGER property.
